

## Company Research & Interview Intelligence

### 1. Company Research

I have an interview with [company] for the position of [job position]. Please summarize the company's mission, core products or services, and recent news or achievements by analyzing their website [website link] and any recent press releases.

### 2. Role Deep-Dive Analysis

Analyze the job description for [job position] at [company] and explain what the hiring manager actually cares about, what problems this role solves, and how I should position myself.

### 3. Interview Preparation

For the position of [job position] at [company], what are some industry-specific challenges or trends I should be aware of? How can I demonstrate my understanding or propose potential solutions during the interview?

### 4. STAR Story Builder

Based on my experience, create 5 STAR-format stories (Situation, Task, Action, Result) I can use for behavioral interviews for a [job position] role.

### 5. Common Interview Questions

Generate a list of common interview questions for a [job position] role within the [industry] industry.

### 6. Mock Interview Simulation

Act as an interviewer for [company] and conduct a mock interview for the [job position] role. Ask me questions one by one and give feedback on my answers.

## Resume & Cover Letter Optimization

### 7. Resume Optimization

Review my current resume attached and suggest improvements tailored for applying to a [job position] at [company]. Highlight any gaps in my experience and recommend ways to address these through online courses or projects.

### 8. ATS Resume Scanner

Scan my resume for ATS compatibility for a [job position] role and rewrite sections to improve keyword matching without sounding robotic.

### 9. Resume Bullet Rewriter

Rewrite my resume bullets using action verbs, metrics, and impact for a [job position] in the [industry] field.

### 10. Cover Letter Writing

Based on the job description for [job position] at [company], generate a cover letter that highlights my relevant experience, skills, and why I am passionate about working for [company].

### 11. Follow-Up Email Generator

Write a professional follow-up email after interviewing for [job position] at [company] that reinforces interest and value.

## LinkedIn Profile Review & Personal Branding

### 12. Profile Scan, Like a Recruiter

Act like a hiring manager in [industry]. Review this LinkedIn profile summary and tell me exactly what's weak, vague, or missing.

### 13. Rewrite My Headline for Discovery

Based on my experience in [industry/skills], write a LinkedIn headline that's keyword-rich, clear, and makes me stand out without sounding generic.

### 14. Summary That Actually Sells Me

Write a compelling LinkedIn summary that highlights my biggest wins, unique value, and personality — in 3 short paragraphs.

### 15. About Section Optimizer

Rewrite my LinkedIn "About" section to sound confident, human, and results-driven for someone in [target role].

### 16. Recruiter Message Template

Write a short LinkedIn message I can send to recruiters or hiring managers about a [job position] without sounding needy or salesy.

## Experience & Skills Enhancement

### 17. Experience Section Upgrade

Rewrite these 3 job descriptions using action verbs, measurable results, and keywords recruiters in [industry] actually search for.

### 18. Skills Gap Analysis

Compare my current skills with what's required for a [target role] and create a 60-day learning roadmap to close the gaps.

### 19. Skills Optimizer Prompt

List the top 10 LinkedIn skills I should add for someone trying to get hired as a [target role] — based on what hiring managers look for.

### 20. Project Portfolio Ideas

Suggest 5 practical portfolio or side projects I can build to strengthen my profile for a [target role] in [industry].

## Visibility, Networking & Thought Leadership

### 21. Comment Strategy for Visibility

Give me a 7-day plan to comment on posts in my industry that raises my visibility, attracts profile visits, and builds credibility.

### 22. Personal Brand Voice Builder

Define my personal brand voice on LinkedIn based on my background in [industry] and the type of roles I want.

### 23. Turn Me Into a Thought Leader (Even If I'm New)

Write 5 post ideas that share insights, lessons, or tips from my career — so I can show up as credible without sounding like I'm bragging.

### 24. Content Calendar Generator

Create a 14-day LinkedIn content calendar for someone in [industry] trying to grow authority and attract recruiters.

### 25. Networking Outreach Plan

Create a simple weekly networking plan to connect with hiring managers, peers, and recruiters in the [industry] space.

## LinkedIn Job Outreach Prompts

### Recruiter Outreach Prompt

Write a short LinkedIn message to a recruiter at [company] about a [job position]. The tone should be confident, respectful, and curious - not desperate. Mention my background in [skills/industry] and ask about potential fit.

### Hiring Manager Connection Prompt

Create a LinkedIn connection message for a hiring manager at [company] explaining why I admire their team and how my experience in [skills] aligns with the [job position] role.

### Cold Outreach Prompt

Draft a LinkedIn cold message for someone in [industry] asking for a quick career conversation about their experience at [company] while keeping it professional and non-salesy.

### Follow-Up After Applying Prompt

Write a polite LinkedIn follow-up message after I applied for [job position] at [company], reinforcing interest and briefly summarizing my value.

### Referral Request Prompt

Create a professional LinkedIn message asking a connection for a referral to a [job position] role at [company] without making it awkward or transactional.

## Job Search Strategy & Negotiation - AI Prompts

### Salary Negotiation Script (AI Prompt)

I received an offer for the position of [job position] at [company]. The offered salary is [amount]. Based on my experience in [skills/years], market standards in [location], and the responsibilities of the role, help me craft a confident and professional salary negotiation script. Include:

- What to say on a call
- What to write in email
- How to counter politely
- How to respond if they push back
- How to ask about bonuses, equity, and benefits.

### Offer Comparison Prompt

I have multiple job offers. Compare these roles and help me decide:

Offer 1:

- Company:
- Role:
- Salary:
- Location/Remote:
- Tech Stack:
- Growth:
- Work-Life Balance:

Offer 2:

- Company:
- Role:
- Salary:
- Location/Remote:
- Tech Stack:
- Growth:
- Work-Life Balance:

Evaluate them based on compensation, learning potential, stability, brand value, culture, long-term career impact, and risk. Then give a clear recommendation with reasoning.

I handle Operations.

@corporealsoul.

## Job Search Tracker Template (Prompt + Structure)

Create a job search tracker for me with the following columns:

- Company Name
- Job Title
- Job Link
- Location / Remote
- Date Applied
- Resume Version Used
- Contact Person
- Application Status
- Interview Round
- Follow-up Date
- Salary Range
- Notes

Also suggest how I should update and review this tracker weekly to improve my success rate.
